WHEN YOU WRITE A STORY

Tips for Organizing a Story:

- ✓ Start with a strong idea about your story's main events. Work out plot details ahead of time. Tell your events in a sequence that will make sense to the reader.

- ✓ The beginning introduces the characters, puts them in a setting, and tells about a problem or conflict that they face.

- ✓ The middle shows the efforts characters make to work out the problem or conflict.

- ✓ The ending tells how the problem or conflict is resolved.
